WINDFALL GEOTEK INC CARDS AI TO DEVELOP TARGETS FOR FLOW METALS CORP ON NEW BRENDA B.C. GOLD PROJECT

NOT FOR DISSEMINATION IN THE UNITED STATES OR FOR DISTRIBUTION TO U.S. NEWSWIRE SERVICES AND DOES NOT CONSTITUTE AN OFFER OF THE SECURITIES DESCRIBED HEREIN

Brossard, Quebec / The Newswire / August 19, 2020 – Windfall Geotek (TSX-V: WIN) or ("The Company") is a mining services company and a leader in the use of Artificial Intelligence (AI) and advanced knowledge-extraction techniques since 2005 in the mining sector is pleased to announce that they have signed a contract with Flow Metals Corp. (TSX.V: FWM) to use its CARDS AI technology on the New Brenda gold project in British Columbia.

Earlier this year, The Company entered an agreement with Flow Metals Corp. (see news release dated February 25th https://windfallgeotek.com/windfall-geotek-inc-option-its-ashuanipi-gold-project-to-flow-metals-corp/)to option out the Ashuanipi Gold Property located 30-90 kilometers west and north-west of Schefferville, Quebec. The Ashuanipi project is the direct result of CARDS Artificial intelligence modeling of 330,900 sq kilometers in the northern part of the Superior Province of Quebec.

Michel Fontaine, President and CEO of Windfall Geotek commented: "We are pleased to have completed this 3rd milestone of our agreement with Flow Metal Corp, A young and dynamic team that views our association as a strategic one. Flow Metals now has two projects that will benefit from our CARDS AI targeting is very exciting as it will double the ROI for our shareholders."

As per the agreement, Windfall Geotek will be applying the CARDS AI modeling system on the 100 sqr kilometer Brenda Gold Project, which lies in southern British Columbia, within the Quesnel Terrane and on strike with the neighboring high grade, gold producing Elk Gold Mine that has a measured and indicated resource of 400,000 Oz Au. Historical Trenching on the property has already identified narrow quartz veins grading up to 15.4 g/t Au and rock samples grading up to 265 g/t Au and yet, relatively no exploration work has been done on the property since the 1990's.

Scott Sheldon CEO of Flow Metals commented: "We are looking to generate new gold targets at New Brenda using the CARDS AI approach. We are very confident that it can help us in a prospective but challenging area with very little surface exposure. This agreement furthers our strategic partnership with Windfall and we are excited to generate high probability targets with this collaboration."

About Flow Metals Inc.

Flow Metals is a Canadian gold exploration company based in Vancouver. The Company seeks exciting data rich gold projects with low capital requirements. The Company holds a 100% interest in three Canadian gold projects. Please see the company presentation for more detail: flowmetals.com/slidedeck
